In this workshop teachers will be shown a range of possible approaches to developing global learning in their own classrooms and across the school, using HEC's whole school approach, entitled Learning in a Global Context.

The session includes an online questionnaire to be carried out during the session which will produce your own bespoke 'next steps' document.

The workshop will offer a range of opportunities to move forward in global learning, including some samples of effective global learning resources and a full copy of our guidance 'Learning in a Global Context'.
